'TEA FOR THREE' WILL NOT BE GIVEN AT ORPHEUM

On account of the railroad strike situation in southern California, "Tea for Three," the light comedy booked for the Orpheum theatre tomorrow night, has been cancelled. This information was wired to Manager J. P. Goss of the Orpheum theatre this morning.

Arthur Bryon and Frederick Perry, who are co-starring with Elsa Ryan in "Tea for Three," were in Ogden late Friday, enroute to Chicago, where the show is to open for the winter season. Messrs. Bryon and Perry motored from Los Angeles to Reno, boarding a train there for the east.

The railroad situation in southern California is in such an intricate tangle that even in event of a settlement, traffic cannot be cleared for weeks, Mr. Bryon said. Perishable foodstuffs will be moved first, and it is expected to be some time before the theatrical troupes will be able to get away.

In the departure of Mr. Canse and wife Ogden loses a couple most highly respected and admired, who have resided here since July, 1890, coming to Ogden in that year from Indiana.

Mrs. Canse is known as one of the most faithful workers of the Children's Aid society and her goodness of heart has endeared her to a great multitude of people.

SHUPE FAMILY HAS A REUNION OF 200 MEMBERS

One of the largest reunions at the Hermitage in a number of months was that of the Shupe family, held yesterday afternoon, which was attended by 200 representatives of the families, coming from the coast, Denver, Colo., Idaho Falls, Gooding and Sugar City, Idaho, as well as from various towns of the state. The largest number from one district was about 150 from Ogden, North Ogden and Ogden Valley.

The afternoon was spent in a program of music and addresses and the reading of the history of the Shupe family. The first record of the family in the United States dates from 1823 when the Shupes arrived in Pennsylvania. After a brief residence in Pennsylvania they moved to Virginia and later to Nauvoo, Illinois, where they became members of the Mormon church and came across the plains with the first pioneers.

One feature of the meeting, which was the second annual reunion, was the reorganization of the association, with the following officers: David Shupe, North Ogden, president; Edward Shupe, Denver, first vice president; Dr. James Shupe, Idaho Falls, second vice president; George Shupe, Ogden, secretary; and Mrs. Etta Shupe, Ogden, corresponding secretary.

After the rendition of the program, a basket picnic was served in the grove. The reunion closed with a dance in the evening.

Mrs. Rollins Feels Better
Than in Twenty Years;
"Tanlac Is Worth
Weight in Gold."

"I am 70 years old, and have been in poor health for a good many years, but since taking Tanlac I feel better in every way than I have for twenty years, and have actually gained twenty-five pounds in weight," said Mrs. M. B. Rollins, who lives at 110 West Thirty-ninth street, Seattle, the other day.

"When I moved to Seattle about 12 years ago," she continued, "I was in hopes that the climate here would help to improve the condition of my health, but I have been gradually growing worse all the time. I suffered constantly from stomach trouble, and what I caused me so much misery that I had actually reached the point where I dreaded to see meal time come. I suffered terribly from rheumatism, too, and sometimes my feet and legs were so badly swollen that I couldn't walk, and my arms would get so stiff and sore that I couldn't use them at all. More than half the time, I wasn't able to wear my shoes. In fact, I had gotten to where I was in misery nearly all the time. My nerves were in such a awful condition that the least noise would upset me, and I never got a good night's sleep. I finally got so weak and run down that I just had to give up and go to bed, and for five weeks my folks didn't have any hopes that I would ever get up again."

"Then I heard about Tanlac and the good it was doing so many people, and I told my son that I would make one more effort to get well, and asked him to get me a bottle. Well, to make a long story short, I am perfectly well again, and Tanlac is responsible for it. Why, I honestly feel twenty years younger, and am so well and strong now that I can get around and do all my housework without the least trouble. I have a fine appetite, and eat just anything I want and never suffer the least bit afterwards. The rheumatism has left me entirely, and so has all that swelling in my feet and legs. My nerves seem to be in perfect condition, and I sleep soundly for eight or nine hours every night. The way Tanlac has overcome my troubles and built me up is more like a miracle than anything else, and any medicine that will do that much for a person my age, is certainly worth its weight in gold."

Tanlac is sold in Ogden by A. R. McIntyre Drug Co. Two busy stores.

OIL COMPANY FORMED BY OGDEN TO DRILL IN WYOMING

The Red Desert Oil company, with 1,000,000 shares of capital stock at a par value of ten cents per share, non-assessable, has been incorporated by a group of Ogden men under the laws of the state of Utah for the purpose of drilling and producing oil in what is known as the Shell Rock Dome, west of the Lost Soldier oil field.

Owing to the extensive developments in the Lost Soldier field by such large companies as Midwest, Prairie Producers Oil & Gas and the Ohio Oil & Gas, this field now has some 36 producing wells and a pipe line has been constructed from the district, a distance of 45 miles to Fort Steele, a point on the main line of the Union Pacific. Since May 25th there has been 600 cars of oil loaded at this point and there is a very large supply of oil in storage awaiting transportation through the pipe line.

The officers and directors of the Red Desert Oil company are as follows:
H. C. Marchant, president and director; J. W. Ure, vice-president and director; E. A. Bowen, secretary-treasurer and director; W. J. Parker, director; Kirby E. Smith, director; Bucklaw King, director; C. R. Green, director; C. C. Child, director.

These men have employed some expert oil men to go over the property and after careful investigation, location was made in what is known as the Shell Rock Dome and from the surrounding escarpment and outcrop it is believed that the oil bearing sands will be reached at about 1100 feet. The Shannon sand which is uniformly in the lower part of the Steele Shale will be the first known oil-bearing sands to be reached and should be found within a depth of 1,000 feet. The Upper Wall Creek sands in the Benton and Mowry Shales of lower Cretaceous age should be found at about 2,000 feet. These sands are the most productive in the Rocky mountain district and produce a fine grade of light oil.

The company has been passed upon by the Securities Commission of Utah and the stock will be put on the market under License No. 74. Organization of the company has been upon a business basis and it is confidently expected that it will be one of the steady producers of the district.

Kirby E. Smith, one of the directors, has made a careful inspection of the property and is very enthusiastic about surface indications. It is only reasonable to assume that with the great number of producing wells in the Lost Soldier district a short distance to the east, that the Shell Rock Dome should contain an immense reservoir of high grade oil. Drilling operations will be started in the near future.
